Ideation Phase – Empathy Map Canvas

Project Name: Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

User Type: Home buyers, real estate analysts, and property investors who want to understand housing price trends and property features.

Empathy Map

The empathy map helps understand the needs, behaviors, and motivations of users who analyze housing market data to make better property decisions.

SAYS

SAYS

- I want to know which areas have affordable houses.
- Which features increase the price of a property?
- I need clear visualizations of housing trends.
- I want reliable data before investing in property.

THINKS

THINKS

- Are property prices increasing in this city?
- Which features give the best return on investment?
- Is this a good time to buy a house?
- I need a simple dashboard instead of complex data.

DOES

DOES

- Searches online housing listings.
- Compares house prices across locations.
- Uses dashboards and charts to analyze trends.
- Discusses property investment with agents or advisors.

FEELS

FEELS

- Confused due to large amounts of housing data.

- Curious about price patterns and property features.
- Cautious before investing large money.
- Relieved when information is clear and visual.

PAINS

PAINS

- Too much scattered housing data.
- Difficulty comparing property features and prices.
- Lack of clear visual analysis.
- Uncertainty about market trends.

GAINS

GAINS

- Clear visual dashboards for price trends.
- Ability to compare house features easily.
- Better decision-making for buying or investing.
- Quick insights from data visualizations.
